Dear customer,

BIODEGRADABILITY – AUGEO MULTI CLEAN

Augeo Multi Clean produced by Rhodia Poliamida e Especialidades Ltda., is obtained from an acetalization reaction of glycerin with ketonic compounds.

According to the OECD 302 Study, Augeo Clean Multi is inherently biodegradable. This study indicates that :

- the substance degrades in the aquatic environment in the medium or long term
- it is not persistent in the aquatic environment.

Tests to evaluate acute toxicity in fish and invertebrates also indicate that Augeo Clean Multi is not toxic to aquatic environment.

The above information is provided for our customers only (and we accept no liability to any third parties) and reflects our current knowledge and experience of the product. All products are supplied in accordance with our general terms and conditions for sale. We can accept no liability for the effects of any chemical combinations or mixtures of the product which are carried out by our customers or third parties. In using the product our customers are reminded to comply with all relevant legal, administrative and regulatory requirements and procedures relating to its use and the protection of the environment.

Yours faithfully,

Márcia Nossig
